The British were finally driven back with great losses of artillery, men and officers. British killed 1,000, Boers killed 20.

Looks Dark For Ladysmith.
London, Dec. 30.—[Special Cablegram]—The situation at Ladysmith is beginning to look darker. White continues to send cheerful messages, but increased bombardment of the city must have had a bad effect on his morale and the increase of enteric fever, which is nearly as deadly as cholera, is serious.

British Scheme Discovered.
Brussels, Dec. 30.—[Special Cablegram]—A private letter from Pretoria states that the Boer commissariat sent ten thousand shoes to the troops at the front which were a size too small for the wearers in each case. The Boers are also in need of uniforms. The letter says further that papers found at Dundee prove that a British scheme was prepared before the war broke out to gobble up the Orange Free State.

Held as a War Prize.
Lourenco-Marques, Dec. 30.—[Special Cablegram]—The German liner Bundesrath from Hamburg has been captured by a British warship and is held as a war prize. On board the Bundesrath were three German officers and twenty men attired in khaki and enroute to the Transvaal.

British Loss Was 109, Boers 9.
Lourenco-Marques, Dec. 30.—[Special Cablegram]—A Pretoria report says that in the sortie from Mafeking on Dec. 24, the British casualties were one hundred and nine and for the Boers nine.

New Anglo-German Treaty.
Berlin, Dec. 30.—[Special Cablegram]—It is learned that an Anglo-German treaty concerning the Portuguese colonies was formulated eighteen months ago but it is to be executed in case of eventualities which have not yet arisen.

Russians and the Boers.
London, Dec. 30.—The Marseilles correspondent of the Daily Mail, telegraphing the substance of an interview with the Russian General Guorko, eldest son of the famous Guorko, who is about to start for Pretoria, says that the Russian officer made the following statement: "I have been offered the command of Boer army corps. In my own mind I am absolutely confident of the success of the Boers. You may take my word for it that thousands of Russians are now fighting under General Joubert."

Rudyard Kipling is Sick.
Brighton, Dec. 30.—[Special Cablegram]—Rudyard Kipling is suffering from influenza.

THURSTON NOT A CANDIDATE

Nebraska Senator Talks on the General Political Situation.

Omaha, Neb., Dec. 30.—Senator John M. Thurston returned to Nebraska today. He talked interestingly of the political situation. "The feeling everywhere among republicans as to the coming national campaign," said he, "is one of most absolute confidence. Nowhere does one hear an expression of the slightest doubt as to the result. The fact that two senators are to be elected in Nebraska will direct hither interest of republicans of all sections of the country. But whatever may be the result in this state, republican supremacy in national affairs is bound to be continued. 'No, I shall not be a candidate for reelection. I cannot be a candidate.'"

REBEL LEADER IS IN FLIGHT

Hernandez Making For Colombian Frontier—Revolution Over.

Caracas, Dec. 30.—General Hernandez, the rebel leader, with a few men, is in full flight towards the Colombian frontier. The revolution is practically over.

TANNER IS NOT A CANDIDATE

Republican Situation in State of Illinois Has Very Much Improved.

Springfield, Ill., Dec. 30.—The republican "love feast" which assumed almost the proportions of a state convention, is now adjourned and has been a history maker. It brought about the largest meetings of republicans ever known in the state, except in conventions in years when a national ticket was at issue. It altered the situation greatly and yet it left in the field three active candidates for the governorship—Judge Haney, Congressman Reeves, and Richard Yates.

From this moment until the date of the convention, set last evening for April 10, at Peoria, these aspirants for the succession to Gov. Tanner's seat will go out in the state and work for delegates. Literary bureaus will be established at once and itineraries of journeys arranged. The basis of representation will be the vote cast for the McKinley electors.

The first uncertainty as to the gubernatorial situation was brushed away when John R. Tanner spoke and released his followers from further allegiance to him.

The speeches at the open "love feast" ran from morning till night and were well received, and the big audiences in the Hall of Representatives expressed delight with the good republican doctrines expounded.

DENTIST GETS RICH FROM TOOTH POWDER

Dr. E. L. Graves, Formerly of Janesville, Sells Out His Chicago Business.

Dr. E. L. Graves, son of Mrs. H. J. Bennett, 158 Linn street, and brother to W. H. Graves, 11 South Main street, has disposed of his tooth powder manufacturing plant in Chicago for a sum that involves a fortune of several thousand dollars. Dr. Graves has grown wealthy from the manufacture of his special brand of tooth powder and during the past summer has been traveling in Europe for the benefit of his health.

Twenty years ago Dr. Graves was practicing his profession in this city, having an office on North Main street. For a time he conducted an office to Evansville and Edgerton. From Janesville he moved to Chicago where he soon established a large practice. While in Chicago Dr. Graves commenced the manufacture of a tooth powder. This powder soon grew in favor with the public and at the end of three years' time the doctor's business had grown from a small concern to one of large proportions employing several people.

PLATT NOT ON RECORD

He Has Not Decided on Man He Will Support For Vice President.

Washington, Dec. 30.—Senator Thomas C. Platt made this statement today: "The report that I favor or have committed myself to anyone for Vice President, or that the State organization is committed to anyone is untrue. I have announced for no one, directly or indirectly. I believe it is entirely too soon to take up this question and all this discussion is premature. 'I like Mr. Woodruff. I think he is a solid Republican, but I have not said that I favored him or that the organization of New York favored him for Vice President. 'Neither have I said that I believed Mr. Root was the man or that Mr. Bliss should be chosen. 'At the proper time I will let my opinions be known. Until then I shall not say anything definite, and all reports pledging me to any one are and will be false.'"

This announcement from the Senator came with great surprise to the friends of Lieutenant Governor Woodruff. Frequent interviews from the senior Senator have quoted him as saying that he thought Timothy L. Woodruff was the man to run with President McKinley, and that he would give him his support.

TO RECRUIT MEN FOR THE NAVY

About 4,000 Sailors Needed to Fill It Up to Full Strength.

TROOPS FOR ALASKA

It Has Been Decided to Increase the Military Force Up There.

It Is Feared That There May Be Mining Claim Troubles in the Spring—Census Supervisors Will Be Given Instructions by Director Merriam—Object of Cruise of the Montgomery on the Coast of Africa.

Washington, D. C., Dec. 30.—Another effort will be made by the Navy department to recruit the navy to its full strength, and the cities of the great lakes will be scoured for men. About 2,500 seamen and 1,500 apprentices are needed, and it is hoped they can be secured from the middle west. It was decided today by Secretary Long to open recruiting stations at Cleveland, Chicago and Milwaukee.

More Troops For Alaska

An increase in the number of troops in Alaska will be made at once, as was decided on yesterday at the cabinet meeting. The step is not taken in anticipation of trouble with Canada, but because the population of the territory is increasing and the interests of law and order demand additional protection. At present there are only two or three companies in Alaska and to these will be added about 500 more men. The garrison of St. Michael's consists of but one company, and of this a detachment was sent to Cape Nome when the rush took place. Fortunately their services were not needed, but had rioting occurred the force would have been inadequate to preserve the peace.

Instruct Census Supervisors

It has been decided by Director Merriam to have the census supervisors throughout the country receive instructions as to their duties from Assistant Director Wines, who will leave here next week on a tour of the country. The supervisors of the respective states will be directed to assemble in one of the principal cities, and they will be met there by Mr. Wines, who will go over the entire census subject, giving information concerning their instruction of enumerators and explaining the different schedules. The supervisors appoint the enumerators, and the assistant director will explain fully their duties, compensation, and method of making reports.

Mystery of the Montgomery

The mystery of the Montgomery's cruise on the coast of Africa, which Senator Mason promises to make the subject of a congressional investigation, does not involve any international question, as he pretends to suppose. Instead of doing police duty for the British empire, the Montgomery was quietly cruising up and down the coast of Liberia, making soundings and charts for the purpose of selecting a harbor suitable for a supply and coaling station for our navy, which is very much needed in that part of the world. The Liberian government offered the United States a choice of its harbors for that purpose, and the Montgomery was sent over there to inspect and report.

Hold-up Men in Milwaukee

Milwaukee, Wis., Dec. 30.—Three hold-up men introduced a novelty in their line of work here last night. They entered the saloon of Caspar Wagner, 125 Muskego avenue, and presenting revolvers ordered the saloonkeeper to throw up his hands. Wagner, instead of doing so began to throw bottles and glasses at the heads of the robbers. Instead of shooting back the highwaymen in their turn produced stones and hurled them at the saloonkeeper with such accurate aim that he was knocked off his feet. They then robbed the till and escaped.

WANT NEW COURSE OF SCHOOL STUDY

Badger Teacher Desires a Course in Art Teaching—Paper on Training Experiment.

Milwaukee, Wis., Dec. 30.—The Wisconsin State Teachers' association held the last session of its forty-seventh annual meeting yesterday. F. E. Doty introduced the following resolution which was carried: "Resolved, That the legislative committee of the State Teachers' association be instructed hereby to use all reasonable effort to secure an amendment to section 496 of the Wisconsin statutes which shall make the teaching of the theory and art of teaching and school management a requirement upon the school in not more than one of its courses, but shall make the subject optional with the student for graduation."

"Resolved, That it is the sense of this resolution that when taught in the high school it should be taught with the elements of psychology as a basis, and that with psychology it shall occupy at least twenty-four weeks in the school course."

Miss Elizabeth Allen of the Dunn County Training school read a paper on the county training school for teachers. Miss Allen's paper was especially interesting as it gave the first statistical results of an experiment along this line which has been watched with interest by educators throughout the state.

"One of the fundamental requirements of a good teacher is a knowledge of the subjects to be taught, and not merely a rough, uncertain, superficial knowledge but knowledge so complete and analytical as will enable the teacher to determine what is to be taught. "What the county training schools propose to do is, just as far as possible, to come into touch with the county teachers and endeavor to educate them to the higher branches of teaching, especially that class which the Normal schools and State University cannot reach, also to educate the educational committees and school boards to the idea that nobody shall be employed who has not had at least one year's professional work in a school of this sort."

It is estimated that the cost of relief to the end of March will be three crores of rupees (approximately \$75,000,000). Owing to the rapid increase in the numbers of people seeking relief the Viceroy, Lord Curzon of Kedleston, invites a closer scrutiny of the claims of the applicants.

Particulars of an alleged cure for the plague have also been cabled to Noumea."

BIG STEAMER RUNS ASHORE

Hamburg-American Liner Wrecked in English Channel.

NO LIVES IN DANGER

Position of the Boat is Perilous and She Cannot Stand Much Longer.

Sea is So Heavy That the Boat Cannot Be Reached by the Life Saving Crews—Heroic Efforts Made to Reach the Steamer Are Without Avail—She Is Lying About Half a Mile from Shore on Her Beam, and Beating on the Rocks—Two Life Boats Finally Reach the Disabled Liner—No Passengers on Board.

Dungeness, England, Dec. 30.—[Special Cablegram]—Early today life savers succeeded in establishing communication by means of rocket apparatus with the big liner which came ashore late yesterday in East Bay between Dungeness and Dover.

It was learned that she is the Pelotas of the Hamburg-American line from Santos, Brazil, for Rotterdam and Hamburg.

The ship's officers signaled that they were in urgent need of assistance, but as yet no life boats have been able to breast the terrific sea to reach the stranded vessel.

The wind abated somewhat but the sea continues heavy. The life savers at Dover and Folkestone have made several heroic efforts to reach the Pelotas but their boats are hurled back on the beach.

Several tugs are reported to have left Dover for the stranded vessel, but they have not yet put in an appearance. The outlines of the Pelotas can just be made out from the headland here. She is lying about a mile and a half off the shore apparently on her beam. The vessel has been washed a little further inshore, since daylight.

Her position is perilous and she cannot stand pounding much longer.

The Pelotas' cargo is being jettisoned preliminary to an attempt to refloat her at the next tide.

It is believed that no lives have been lost although none of the passengers have been taken off.

One report says that eight hundred passengers are aboard, but this is believed to be exaggerated.

Two Life Boats Reach Her

Dungeness, Dec. 30, p. m.—[Special Cablegram]—Two life boats have reached the Hamburg-American liner aground off this coast and an effort will be made to save the passengers and crew, numbering about eight hundred people.

No Passengers Aboard

Dungeness, Dec. 30.—[Special Cablegram]—The steamer had no passengers aboard, but was loaded with a full cargo of grain. All on board the steamer have been gotten ashore without accident.

Mail Steamer Aground

London, Dec. 30.—A large German mail steamer, which may belong either to the Hamburg-American or North German Lloyd line, and whose name has not been ascertained, has gone aground during a terrific gale in East Bay, about a quarter of a mile off Dungeness, the southern extremity of Kent.

Heavy seas are breaking over the vessel, and the lifeboats are unable to reach it.

Fears are entertained for the safety of the passengers.

It is reported that the position of the liner is serious.

Tugs and lifeboats were urgently requisitioned from Dover and Folkestone, but they had the utmost difficulty in getting off owing to the gale.

The signals of distress were observed from the Sandhead lightship.

CAN'T KEEP IT UP.

Can't Deceive Janesville People Very Long—They Learn Quickly.

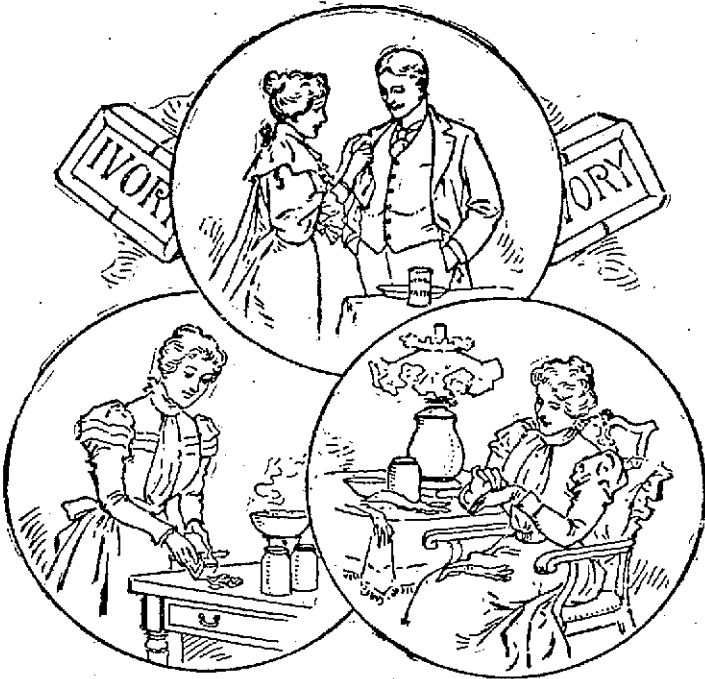

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time a man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger residing in a far-away place but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders deceit impossible. It is so easy for you to investigate. Read this case:

Mr. Samuel Griffin, of 203 Locust St., journeyman carpenter, says: "I had a severe attack of la grippe and as a result weakness of the kidneys set in. Thesecretions from those organs were greatly disordered, annoyed me much at night and I seemed to have limited control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Doan's Kidney Pills for bringing about this result."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name. Doan's and take no substitute.

IVORY SOAP PASTE.

In fifteen minutes, with only a cake of Ivory Soap and water, you can make a better cleansing paste than you can buy.

Ivory Soap Paste will take spots from clothing; and will clean carpets, rugs, kid gloves, slippers, patent, enamel, russet leather and canvas shoes, leather belts, painted wood-work and furniture. The special value of Ivory Soap in this form arises from the fact that it can be used with a damp sponge or cloth to cleanse many articles that cannot be washed because they will not stand the free application of water.

DIRECTIONS FOR MAKING.—To one pint of boiling water add one and one-half ounces (one-quarter of the small size cake) of Ivory Soap cut into shavings, boil five minutes after the soap is thoroughly dissolved. Remove from the fire and cool in convenient dishes (not tin). It will keep well in an air-tight glass jar. COPYRIGHT 1908 BY THE PROCTER & GAMBLE CO. CINCINNATI

CLOSE OF PROSPEROUS YEAR

Commercial Agency Gives the Record to 1899.

FAILURES, HAVE BEEN FEW.

Lower in Number Than in Any Year Since 1883 and Smaller in Amount of Liabilities Than Since 1881—General Business Thoroughly Safe.

New York, Dec. 30.—R. G. Dun & Co.'s weekly review of trade says:

"No correct report of failures in 1899 can be made until the year has closed. A collapse of speculation in copper stocks has swelled the aggregate at Boston alone over \$18,000,000 within a few days, and might yet add to the record. The failures thus far reported are fewer in number than in any year since 1882, and smaller in amount of commercial liabilities than in any year since 1881. The aggregate of defaulted liabilities is \$120,160,000, but nearly two-thirds of the banking liabilities were added within a few days, the aggregate reaching about \$30,900,000. The commercial liabilities have been about \$89,260,000, though exact returns for a few recent failures are not yet obtainable. In no other years except 1881, with defaulted liabilities of \$81,155,922, and 1880, with \$65,752,000, have failures been as small since the agency commenced quarterly returns in 1875. The average of liabilities per failure is less than \$2,500, the smallest in any year of the twenty-five.

"The week has been exciting only at Boston, where the failures growing out of speculation and the efforts to re-establish banks and firms suspended have not given the week a holiday character. Yet general business is thoroughly safe and prosperous, and no important firms have failed save some which were individually connected with concerns involved in speculation.

"The industries are closing the most extraordinary year of their history. Long-established branches have undergone a veritable reconstruction, vastly increasing their capacity, while new industries have enlisted a vast capital.

"Failures for the week have been 221 in the United States, against 252 last year, and 25 in Canada, against 22 last year."

Bradstreet's says:

"Holiday quiet and stock-taking impart an appearance of dullness to general distributive trade, broken, however, by fair activity in re-order business to fill up stocks depleted by the heaviest holiday trade that has ever been experienced. Following the flurry in money, stocks and in some lines of speculative commodities, noted last week, has come, as was expected, a more cheerful tone and a firming up of quotations is noted in such staples as cotton, which was affected by last week's money developments, and also in hog products, coffee, copper, tin and lead."

British Fleet on War Footing.

Rome, Jan. 1.—Large re-enforcements of sailors have arrived at Malta from England, completing the work of placing on a war footing the entire Mediterranean squadron. The Italian press regards the incident as significant.

Anglo-German Treaty Denied.

Berlin, Dec. 30.—The official Deutscher Reichsanzeiger states that it is authorized to declare that the reiterated statements of the Lokai Anzeiger in regard to an Anglo-German treaty are impudent and clumsy inventions.

Not to Watch American Coast.

Bermuda, Dec. 30.—There is no truth in the report that British cruisers are to watch the American coast to stop filibusters. The program for the British fleet is to sail on Jan. 6 on a West Indian cruise.

WINE OF CARDUI

Woman's Crowning Virtue.

BELETON, Mo., July 27.
For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE.

WINE OF CARDUI

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

THE VICE PRESIDENCY.

Nearly every Northern state has a favorite son to speak of when the vice presidency is mentioned. This fact gives the St. Louis Globe Democrat a text for the following editorial:

The vice presidential office has suddenly become more attractive to statesmen of character and ambition than it was in many years. At one time it was considered something of an insult to offer the nomination for this post to a statesman of national reputation who had been looking for a higher office. Many men who never openly aspired to the first place on the ticket of a great party looked at the vice presidential post as being too insignificant for their acceptance. When Silas Wright, of New York was nominated with substantial unanimity for Vice President by the convention which put up Polk for President, he sent back such a prompt and emphatic declaration that the telegraph used at that convention for the first time for any political gathering, was said by the politicians of the time to have sizzled with the New Yorkers indignation.

Many Statesmen of national stature, however, are apparently ready to accept the vice presidential candidacy on the republican ticket in 1900. Of course, the nomination in this instance is equivalent to election. The experience of the late Vice President Hobart shows that the office carries with it, to the right sort of a man, a good deal of influence in political affairs. Mr. Hobart was consulted freely by the leaders of his party, he was a confidant of the president, and he was thus able to impress his personality on public affairs. In this way the post became the office under the government in more than a theoretical sense. If a man of ability, popularity and tact is nominated for vice president at the Philadelphia convention next June he will be reasonably certain to gain enough prestige by his service to give his post a permanent boom in the estimation of statesmen of character and ambition.

LOAFERS' ORGANS GROW.

If the editor of the Gazette was out a little more nights and Sundays he wouldn't make such foolish statements as he does. The wisest ones merely laugh at some of the outlandish assertions made—Recorder.

The Gazette does not claim to represent the ideas of the night-and-Sunday loafers. The proud distinction of being "the loafers' organ" belongs exclusively to The Recorder. Perhaps, from the loafer's point of view The Gazette makes "outlandish assertions," but the fact that the Loafers' Organ cannot meet them is shown by the character of the above paragraph. The Loafers' Organ has nothing but loafers' arguments on the question. The loafer always thinks personal abuse the proper thing.

However, The Gazette doesn't care what the loafers or the Loafers' Organ thinks or says. The above paragraph is reproduced simply in order that people may know how well The Gazette has established its case with reference to the police matter, and to show how the proposition sits on the stomach of the Loafers' Organ. The Gazette has often asked the Loafers' Organ for the names of some of the people it claims to represent, but the Loafers' Organ has not presented them. The above paragraph, however, throws some light on the matter, and the people can readily identify the "wise ones" the Loafers' Organ refers to.

The foreman of a Michigan lumber camp hanged one of his men by the neck, until the man became insane. When the foreman was arrested, he declared that "the affair was a joke; that they strung Peterson up because he was a little silly, to see if they couldn't get some sense into him." The attempt, it seems, failed, and the indications are that the failure was due to the fact that the experiment was tried on the wrong man.

A press dispatch announces that Col. Bryan and ex-Governor Hogg are to "ride an ostrich race" down in Texas. If Bryan wants the real thing in the way of an ostrich ride he should come to Janesville. The best ostriches on earth, for riding and amusement purposes, are now housed at the Janesville farm at Spring Brook.

The New York Journal has thrown the silver issue overboard. The Journal was about the strongest silver organ in the country, and now that it has abandoned the white metal, Bryan is about the only friend that silver retains—and Bryan is wobbling a bit, too.

If any discussion ever arises as to the merits of the Montgomery, it can be

End of the

Season Closing Sale

We have had an unusually profitable season; we have sold better goods for less money than ever before. This was because the increased volume of our business permitted us to safely sell our goods with a smaller margin of profit than heretofore, and now at the end of the regular selling season, we have gathered together ends of lots of suits, overcoats and trousers and propose to make a sweeping clearing sale of them at such attractive prices as will give an opportunity to people with the slenderest purses to

Own the best clothing that it is possible to produce.

We call your attention specially to the fact that while there is no complete line of sizes in any one pattern, there is a perfect assortment of sizes at each price, so that every man, no matter what his size or proportion, can be properly fitted.

A few Suits left in Worsted Stripe Suitings, former price, \$18.00; go at..... **\$12.00**

(These are strictly fast colors.)

A fine Blue Serge that sold at \$16.00, one 35, two 38, one 40, one 42, strictly all wool worsted and fast colors; these go at..... **12.00**

The three lines of Cassimere and Cheviot Suits that sold at \$12.00, a few sizes in each lot, first-class wearing suits, go now at..... **8.00**

A great reduction, all through our stock. Watch our announcements from day to day.

Even among the best there is always a first choice, therefore the early comers are apt to get the best pickings.

NON SUIT RENDERED IN BOECHE CASE

RAILROAD COMPANY WIN THEIR LAW SUIT.

Court Found That the South River Street Resident Had No Cause for Action—Money Had Already Been Paid Him—Jurors Excused for the Term.

In the circuit court of Rock county this morning in the case of William Boeche vs. the Chicago & Northwestern railroad the court found that the complaint as filed by the plaintiff failed to state facts sufficient to constitute a cause of action and further found that the motion for a nonsuit should be granted. The plaintiff was allowed a stay of proceedings for sixty days.

Following were the witnesses examined:

City Clerk Arthur E. Badger, Arnold Detwyle, Mrs. Thomas Kirk, Frank Palmer, E. P. Doty, John Kelly, Chas. Kueck, Jr., C. H. Kueck, Harry A. Mooser, William Boeche.

Mr. Boeche gave the railroad company certain rights in the street in front of his premises on South River street, for which the railroad company paid \$800. The plaintiff in his complaint alleged that the railroad company did not live up to their agreement, but instead kept cars in front of his place.

Attorney E. M. Hyzer represented the railroad company and Attorneys Smith & Pierce the plaintiff. The jurors were discharged for the term and were allowed double mileage.

All jurors were allowed pay from the time they were summoned to appear until they were finally discharged by the court except in cases where jurors are excused on their own application.

H. L. Maxfield was admitted to practice in all of the courts of the state with the exception of the supreme court on motion of Chas. C. Russell.

LAUGH AT "PEACE AGENTS."

Only Unconditional Surrender Will Be Accepted in the Philippines.

Washington, Dec. 30.—At the war and state departments only smiles are provoked by the offer of Fernandez, the unauthorized Filipino agent, who is now in this country and proposes to settle the war if proper terms are made. The time for terms passed long ago, and the present campaign will be conducted until there is not an armed Filipino soldier in the islands.

No terms but unconditional surrender have ever been considered since the efforts of the commission were rejected by Aguinaldo last spring.

While in Washington, it is said, the three representatives are to make a canvass of the members of the senate and house of representatives, with the object of learning each member's attitude toward the administration and the Filipino war.

To Avert Labor War.

Chicago, Dec. 30.—A permanent arbitration board, to settle all differences between labor unions and contractors, and the averting of the chances of a labor war practically were assured Friday. At the meetings of the Building Trades' council and the Building Contractors' council the report of the joint conference committee representing the two organizations was accepted. The principal recommendation of the conference committee was the establishment of a permanent arbitration board. This board will consist of eleven members and adjudicate all difficulties that may arise.

Custom Receipts at Havana.

Havana, Dec. 27.—The custom-house receipts yesterday were exceptionally large, amounting to more than \$100,000. In view of the fact that no more ships than usual have arrived during the last few days this notable increase is significant as showing the good effect of the recent arrest of custom-house appraisers. The total receipts for the year exceed \$11,000,000, whereas the highest estimate made by the war department for the year's returns was \$9,000,000.

Flowers Under Artificial Light.

Nearly all flowers in which there is a notable proportion of blue are unattractive when seen under artificial light. Hence purple and lilac flowers do not usually look well at night, though there are exceptions, owing to the intensity of the red in some purples, which comes out well at night and causes them to appear as crimson. Yellows invariably lose brilliancy and pale yellows become bad whites under gaslights, but reds and crimsons and all shades of pink and white retain their beauty, and, as a rule, green leaves are pleasing under any light.

FIND FIRE ON POLE SIXTY FEET HIGH

DEPARTMENT COPE WITH AN UNUSUAL SITUATION.

Telephone Linemen Had Put Up a Wind Guard, while Splicing a Cable, and the "Tent" Caught Fire from an Overturned Plumber's Furnace—Damage Was Light.

It isn't often that the fire department is called upon to fight a blaze on the top of a sixty foot telephone pole, but a fire of that description was the cause of the alarm from box 31, corner of Court and Main streets, this morning.

Two employees of the Rock County Telephone company were at work splicing a cable on top of the pole in front of the residence of Major F. F. Stevens. To shield themselves from the wind they erected a framework and covered it with burlap. A gasoline stove such as a plumber uses, was used inside this "tent" to melt the paraffine required in the work of splicing. The quarters were of necessity cramped and while the men were working this morning, one of them accidentally overturned this gasoline furnace.

In an instant the burlap was all aflame, and the burning paraffine from the kettle flowed on the platform. The two workmen didn't stand on the order of leaving, but left at once and an alarm was quickly sent in.

The damage done was not extensive, although a few telephones were rendered useless because of the injury to the cable. Repairs will be made as soon as possible, however, and the inconvenience will be but temporary.

Besides a husband she leaves a son M. J. Garvin of Neenah and six daughters, Mrs. J. E. Wilbur, Beloit; Mrs. J. H. Welsh, Ashland, and Mrs. Lawrence Ryan, Mrs. H. G. Sloan Miss Mamie Garvin and Miss Julia Garvin of Janesville. Funeral services will be held from St. Patrick's church Monday afternoon at 2 o'clock.

THE FRENCH NAVAL PLANS.

Proposed Bill to Provide for Expanding 120,000,000 Francs.

Paris, Dec. 30.—The government will submit to the chamber of deputies at the beginning of January a bill providing for the defense of the French coasts and colonies, and to increase the strength of the fleet. This does not involve an increase in the expenditure. The cost of the defense of the coasts and colonies is estimated at 120,000,000 francs, spread over two and a half years. This sum will be provided for by 50,000,000 francs annually, set aside to pay off certain bonds, and which become free this year by the final repayment of these bonds. The expense of the increase of the fleet will be met by utilizing 55,000,000 francs out of the 105,000,000 francs annually devoted to the construction of new vessels. At the end of two years the whole 105,000,000 francs can be devoted to the new naval program.

John Mitchell Is Confident.

Indianapolis, Ind., Dec. 30.—John Mitchell, president of the United Mine Workers, said yesterday: "The coming convention will demand, and the delegates fully expect to receive, a substantial advance in wages for coal mining. There is every assurance that we shall have our demands granted by the operators." President Mitchell denies a report that there is extreme suffering among Indiana coal miners. He says there are about 250 strikers out in the Evansville district, who have been on strike for about eight months, but he does not think there is any suffering from hunger, cold or lack of clothing.

Poison in Overcoats.

Poisoning from overcoats is an unexpected danger, but not less than sixty cases have been reported among the street cleaners of Birmingham, England. On being wet the cloth, in the dyeing of which chloride of zinc had been used, gave off poisonous vapor, producing painful swelling of hand and arms.

LEAKING ROOF CAUSES SUIT

Captain W. T. Van Kirk Sues Paul Gehrke the Baker.

In the municipal court today was heard the action of W. T. Van Kirk vs. Paul F. Gehrke. The case was before a jury of six. The plaintiff brings action for the collection of \$202.51 rent for the North Main street store occupied by the defendant who operates a bakery and confectionary store.

Mr. Gehrke has a counter claim for \$157.35 that he alleges is due him as the result of damage to his stock caused by a leaking roof.

TO MET AT PEORIA APRIL 10.

Illinois Republican State Committee Sets Early Date.

Springfield, Ill., Dec. 30.—Peoria is the place of holding the next republican state convention, and Tuesday, April 10, 1900, is the date. This action was taken at a meeting of the state committee held here Friday evening.

The selection of Peoria as the place of holding the convention seemed to be agreeable to the friends of Candidates Hancey and Reeves alike, and the only suggestion of politics in it was that it might be a trifle adverse to the desires of Senator Cullom to succeed himself, providing Gov. Tanner or any other statesman makes a fight on him. All of Gov. Tanner's friends in the committee voted for Peoria.

The delegates to the state convention will be apportioned on the ratio of one for every 400 votes cast for President McKinley, or major fraction thereof. Under this apportionment the total number of delegates to the convention will be 1,330, of which Cook county will have 559.

Julius Starr spoke for Peoria and Senator Little for Springfield when it came time to fix on the place for the gathering. Peoria offered a hall to seat 6,000 people, free hotel accommodations for the members of the state committee, free music, and a promise that hotel rates should not be raised and that lower railroad rates should be secured.

WOULD GIVE UP PHILIPPINES.

Bryan Tells Audience the Islands Should Be Returned.

San Antonio, Texas, Dec. 30.—W. J. Bryan last night made a speech on finance, trusts and expansion before the largest audience ever seen here. He stated that the democratic platform for the coming campaign would be the Chicago platform of 1896, with the addition of such planks as recent industrial combinations and the late war necessitated.

He spoke at length on the money question, but made no mention of a ratio, his remarks dealing principally with the subject of bimetalism in general.

Speaking of expansion, Mr. Bryan said that it was clearly the duty of the country to establish a stable government in the Philippines, and then turn the government over to the inhabitants of the islands.

Plan New Sea Giants.

Washington, Dec. 30.—Designs for the greatest battleships ever projected for the American navy were agreed upon by the naval board of construction Friday after several months' discussion of the important questions of battery, armor, speed, coal capacity and displacement. The three new vessels—to be called the Georgia, the New Jersey and the Pennsylvania—will equal in formidability the finest line of battle vessels yet laid down by any foreign power, and with the addition of typical American improvements, will surpass in fighting force any ships now afloat. The total cost of these three ships when ready for sea will exceed \$7,000,000 each.

MILWAUKEE ROAD RAIL EXTENSION

BUILDING ONE MILE OF TRACK EACH DAY.

Coming Through Janesville at a Rapid Rate—The Line Enters Wisconsin South of Geneva Lake—Will Pass Near Darien and Then Direct to the Bower City.

The extension of the C. M. & St. Paul railway from Libertyville, 30 miles north of Chicago, to Janesville, seems to be making good progress. The east end of the branch is graded and bridged and tracklaying will begin, according to plans, this week. The line enters Wisconsin south of Geneva Lake and will pass near Darien and as near as an air line to Janesville as possible. About a mile of track will be laid each day.

Officials of the Milwaukee road were in Janesville this week and stated that the opening of spring would see the line well towards the city limits. In spite of cold weather the work of grading is being rushed by a large force of men.

A Special Cloak Sale.

Archie Reid & Co. have secured from the auction sale of the F. Siegel & Bros. Chicago Manufacturing stock, a large number of high class jackets, capes, golf skirts and golf suits that will be placed on sale Tuesday morning. Mr. Simpson was in attendance at the sale which took place last Wednesday and Thursday, and many special values will be found on sales.

GOLDEST WEATHER FOR THE SEASON

FIVE BELOW ZERO PREVAILED HERE THIS MORNING.

Water Pipes Frozen in Many Homes in Janesville During the Night—Ice on the River Made More Secure—The Associated Charities Are Doing Good Work.

Five below zero was the prevailing weather in Janesville and vicinity at 6 o'clock this morning. It was the coldest morning of the winter so far. Sunday will be cold also in the early part of the day, but a slight moderation is predicted toward night.

Rock river, north of the upper railroad bridge, is now frozen, the entire width in places. During the past two days the ice has frozen to a depth of inches and skaters have but little to fear now except in places where air holes prevail.

Local clothing, shoe, dry goods and coal merchants are delighted and are only regretting that zero weather did not prevail earlier in the season.

The Associated Charities are doing much good work among the poor this weather in the way of providing warm clothing. Charity work with the poor of Janesville has been less active this winter on account of better times.

If the present cold snap continues or grows more severe an inspection of the local fire hydrants will take place so that there will be no doubt in the fire department securing water in case of an emergency. In many of the private houses water pipes froze during the night.

Gen. Otis Reports Capture of a Filipino Stronghold.

MUCH AMMUNITION CAPTURED

Insurgent Camp in the Mountains North-east of San Mateo Compelled to Surrender—American Prisoners Separated—Lieut. Taylor Killed.

Washington, Dec. 30.—The adjutant general received a cable message from Gen. Otis on Friday telling of the capture of a mountain stronghold beyond Mont Alban, northeast of San Mateo, formerly supposed to be impregnable, and the capture of many prisoners and a large quantity of arms and ammunition. The dispatch is as follows:

"Manila, Dec. 29, 1899.—Adjutant General, War Department, Washington.—Col. Lockett, with regiment, two battalions Forty-sixth (Col. Schuyler), one Forty-fifth (Col. Doornst), and company Twenty-seventh infantry, two guns, Capt. Van Deusen, attacked enemy 600 strong on mountain stronghold beyond Mont Alban, northeast of San Mateo. Large number killed and wounded; twenty-four taken prisoners. Lockett captured one cannon, forty rifles, 20,000 rounds ammunition, 500 pounds powder, arconal fortifications, all food supplies, and considerable other property. This captured point located on mountain trail, and was formerly supposed to be impregnable. Our casualties: Lieut. Enslow, Eleventh cavalry, and five enlisted men wounded, mostly slight. Private Matson, Forty-fifth infantry, drowned. "OTIS."

Becoming a Mother

Is an ordeal which all women approach with indescribable fear, for nothing can compare with the horrors of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipation of the coming event, and casts over her a shadow of gloom that cannot be shaken off. Thousands of women have found that the use of MOTHER'S FRIEND during pregnancy robs confinement of all pain and danger, and insures safety to mother and child. This scientific preparation is a godsend to all women at the time of their most critical period. Not only does MOTHER'S FRIEND carry woman safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at \$5.00 per bottle. Send for free booklet to THE BRADFIELD REGULATOR CO., Atlanta, Georgia.

BOERS BATTLE WITH KAFFIRS

Reports from Pretoria Tell of a Fight with Blacks.

NATIVES ARE UNDER ARMS.

After Heavy Fighting the Burgers Capture a Fortified Lager—Belated News from the Front—Gen. Buller May Make Another Attack.

Pretoria, Tuesday, Dec. 26, by way of Lourenco Marques, Thursday, Dec. 28.—Commandant Swart reports from the laager at Alwyn's Kop, near Zeorust, that he had an engagement on Friday, Dec. 22, with Kaffirs in the neighborhood of Dordorpoot. The Kaffirs occupied a strongly fortified ridge, and were well prepared for emergencies.

After heavy fighting the burgers captured the Kaffir position, losing three killed and five wounded.

Gen. Buller Re-enforced.

London, Dec. 30.—Buller has been re-enforced by a portion of the Fifth division, including artillery. The Boers are strengthening their intrenchments on the Tugela, where persistent shelling by the British naval guns fails to elicit a Boer reply.

The bombardment of Ladysmith is more vigorous than ever. Sir Stewart White had a narrow escape last week, shells striking the house where he was lying ill with fever and wrecking the next room. The general promptly removed to a place of safety.

On the western frontier Mothuan is still waiting. The Kimberley garrison is growing restive and attempting sorties.

Gatacre's position is unchanged.

The British are waiting a development of Boer tactics and the arrival of Lord Roberts.

Fear Buller Will Attack.

London, Dec. 30.—The latest special dispatches from Chieveley camp hint darkly at some important movement in the future. This is interpreted, with some misgivings, to mean that Gen. Buller contemplates a renewal of his attempt to relieve Ladysmith.

It is reported by the same dispatches that the Boers have now retired to the north bank of the Tugela, being afraid that the swollen river may bar their retreat. They are also moving their laagers nearer Ladysmith, probably with the intention of putting further pressure on the garrison, which now seems to be suffering pretty heavily from bombardment.

It is difficult, however, to conceive that Gen. Buller would make another frontal attack, especially now that the river is rising, and an additional indication that this is not his purpose is the fact that he has removed his headquarters back to Frere.

It is known that further artillery is due to arrive for Gen. Buller, but the belief here is that his forces even then will be too weak. He may, however, be animated by a desire to accomplish something before the arrival of Lord Roberts and to satisfy the keenness of his men to retrieve their defeat.

Cape Town, Dec. 30.—A dispatch from Cradock reports heavy firing in the direction of Stormberg. It is supposed this is connected with Gen. Gatacre's attempt to reopen communication with the Indwe collieries.

Pietermaritzburg, Dec. 30.—A dispatch from Ladysmith, dated Dec. 22, says:

"The Boers have mounted another Howitzer on Surprise hill, replacing the gun captured in the sortie of the rifle brigade. While they watch us nightly with a searchlight and bombard the place daily, they show no signs of assaulting the town. They probably think they can starve us out, but we have plenty of provisions. The total casualties since the siege began are seventy men killed and 236 wounded."

Enthusiasm Over "Bobs."

London, Dec. 30.—Dispatches from all parts of South Africa emphasize the great enthusiasm among the troops and public occasioned by appointment of Gens. Roberts and Kitchener. The announcement that the former will have supreme command and that the latter will be chief of staff has largely dispelled the depression in Cape Colony caused by the recent reverses, while the soldiers expect everything from the presence of "Bobs," from success in battle to Cape beer.

Advices from Cape Town, dated Dec. 24, says an investigation shows that the reported disaffection among the Dutch in the Victoria West district has been overdrawn. The farmers, it is pointed out, are mostly land owners, and will not risk the loss of their farms by rising.

Views of Military Experts.

The Mail's military expert attacks the government and the war management for the weakness of artillery. The Daily News' war expert says: "The speediest prosecution of the campaign will be the most economical alike of treasure and lives."

The Telegraph war expert: "There are signs that the Boers have become as nervous at Tugela as they are at Magersfontein, and such a mood indicates the proximity of great events, and we can look for fortune in the face with sturdy and unabated confidence."

The Standard war expert: "The Boers cannot be saved from defeat unless, like the American colonies in the war for independence, they should find allies among European powers."

Causes Unrest in France.

Paris, Dec. 30.—The virtual seizure by British officials of vessels laden with American flour consigned to the Boers and the statement of the Lokal Anzeiger regarding an alleged Anglo-German-Portuguese treaty for the di-

vision of Portugal's colonies between Great Britain and Germany have aroused renewed interest in Paris. The possession of Delagoa bay is believed to be as essential to British success in South Africa as a victory over the Boers is essential to Great Britain's international prestige. Therefore it is felt that if necessary Great Britain will take extreme measures.

Cautious Move of Britain.

London, Dec. 30.—In a letter to the Times Lord Rosebery raises the question, which he describes as of supreme importance, whether the British government treated foodstuffs generally as contraband of war. Lord Rosebery's object, as he explains himself, is merely to elicit an authoritative statement of what has happened in South African waters. The Times says there is no doubt that there is a very wide spread feeling here that it would be unwise for Great Britain to create a precedent which might some day be invoked against her.

Russians in the Boer Army.

London, Dec. 30.—The Marcellin, correspondent of the Daily Mail, telegraphing the substance of an interview with the Russian Gen. Gourko, eldest son of the famous Gourko, who is now about to start for Pretoria, says that the Russian officer made the following statement: "I have been offered the command of a Boer army corps. In my own mind I am absolutely confident of the success of the Boers. You may take my word for it the thousands of Russians are now fighting under Gen. Joubert."

Would Infer French Exposition.

Paris, Dec. 30.—A dispatch from St. Petersburg says: "The Novosti, one of the inspired newspapers of the government, declares that Russia and France should profit by the present situation of Great Britain—Russia to open a route to the Indian ocean via the Persian gulf, and France to question Egypt. If necessary, the Novosti urges France to postpone the exposition until 1901."

Boers Blow Up Guns.

Pretoria, Dec. 25 (via Lourenco Marques, Dec. 28).—Heavy cannonading has been heard recently at Mafeking, and yesterday at Ladysmith terrific explosions were heard. It is believed that the Boers have succeeded in blowing up some of Gen. White's guns. No important developments are reported, however, either from Ladysmith or the Tugela river, since the battle of Colenso.

Reports a British Repulse.

Pretoria, Dec. 26.—(By way of Lourenco Marques, Thursday, Dec. 28).—Commandant Synman reports as follows from Mafeking: "On Monday morning the enemy from Mafeking attacked one of our forts in force, with cannon, Maxims and an armored train, and so persistently that there was fighting right on the walls of the fort. But we have retained our fort. The British loss is reported as fifty-five."

Buller Not Strong Enough.

London, Dec. 30.—The Post's war expert says: "Great Britain is slowly coming to see that she, too, in a sense is fighting for her political existence and must make exertions adequate to the stakes. A decisive victory on the Tugela would put a different face on the matter, yet with 80,000 troops and 20,000 colonials in the whole field Sir Redvers Buller is not strong enough."

Offers a Cavalry Troop.

Ottawa, Ont., Dec. 30.—Col. Hatcher of Nashville, Tenn., has offered the militia department to send 200 horsemen, with himself in command, with the second Canadian contingent for South Africa. It is not likely that the offer can be accepted, as there are more men volunteering in Canada than can be accommodated.

Will Wear American Belts.

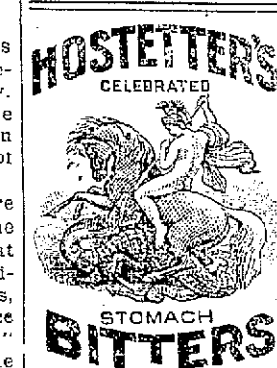

Worcester, Mass., Dec. 30.—A manufacturer of cartridge belts in this city has received an order from the British government for 45,000 double bandolier cartridge belts. It is said that the order is a rush one, and the cartridge belts will be shipped to the Transvaal in lots of several thousand each as soon as manufactured.

British Buy 800 Mules.

Kansas City, Mo., Dec. 30.—The British government has purchased 300 more mules in Kansas City. This makes the total number sold to Great Britain for the war in the Transvaal by Kansas City dealers 3,521. Capt. S. M. Smith, who has been in Kansas City inspecting the mules, went to St. Louis last night.

Death of E. V. Smalley.

St. Paul, Minn., Dec. 30.—E. V. Smalley, secretary of the "National Sound Money League" and an old northwestern newspaper man, died at midnight Friday, at his residence, 3 Holly street, after a somewhat prolonged illness.
